

Get Started with Lawson Smart Office Today

“What Lawson has done with Smart Office is to provide more pervasive functionality across Lawson and Microsoft Office applications with the possibility of unlimited variations.”

- Gartner

Lawson's Smart Office replaces the traditional single-window interface with an updated interface allowing the user to experience higher productivity. This interface is a customizable work space that sits on top of the normal Windows desktop, delivering real-time information to the user with enhanced graphical and functional content.

Analysts International Corporation (AIC) can enable Lawson clients to take advantage of Lawson Smart Office and will partner with the client's team to successfully implement the solution. AIC's Lawson team offers a predictable, low-risk solution designed to help you experience the benefits of Lawson Smart Office quickly and seamlessly.

OUR METHODOLOGY

AIC provides clients with an end-to-end Smart Office solution. Our three phase approach; prepare, deploy and enhance productivity, is built on best practices and designed to get your users up and running quickly with Lawson Smart Office.

AIC's highly experienced consulting team will work side-by-side with your team as we lead you through leveraging Lawson Smart Office for user productivity improvements. We will provide both functional

application guidance and technical assistance throughout the engagement to ensure your team understands the solution and its functionality following the implementation.

Prepare

In preparation for implementing Lawson Smart Office, AIC will collaborate with your team to define project objectives, review and understand your current configuration and assist with the upgrades and prerequisites required.

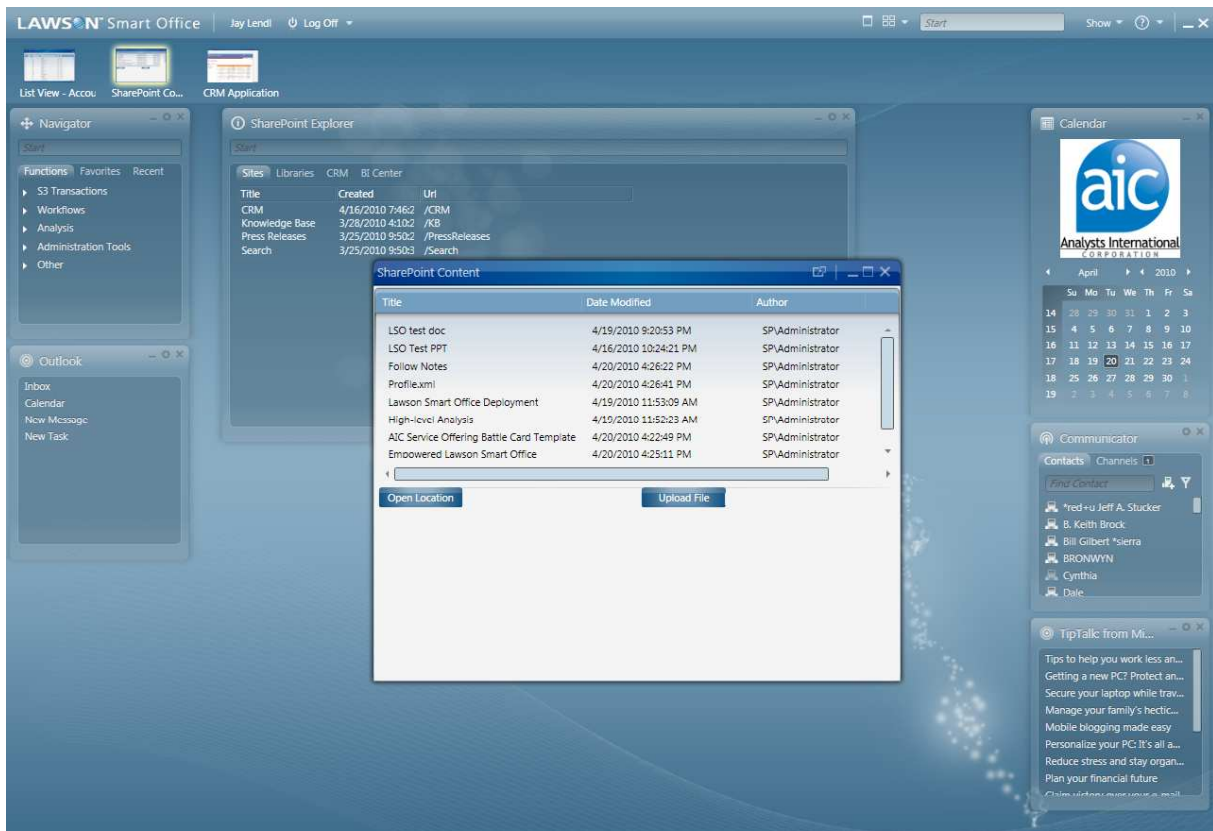

For a seamless installation and operation of Lawson Smart Office, the following systems requirements are critical;

- Lawson LifeCycle Manager
- Lawson Web Services Instance
- LDAP
- Windows Server 2003 64 bit physical or virtual server
- LSF 9.0.1 and 9.0.0 applications

Deploy

AIC delivers the core Lawson Smart Office applications, resources and readiness including:

- Server software installation
- Customized user profiles
- Standard widget library configured for your organization
- Assistance with Lawson Smart Office desktop software deployment
- Lawson Smart Office tutorials and videos
- Lawson Smart Office administrator and user training

Lawson Smart Office Interface

Enhance Productivity

Following the implementation of Lawson Smart Office, AIC's team can assist you with configuring and extending your user experience by leveraging Process Flow Integrator, Lawson Business Intelligence, Lawson Enterprise Search and custom-built widgets.

AIC can also provide custom extensions built on the Lawson Smart Office Software Development Kit (SDK). Utilizing the SDK, we can further extend views and workflows to integrate with other third party applications. The AIC team has already built integration with Microsoft Office SharePoint Server that displays document libraries directly on the Lawson Smart Office canvas for ease of use.

CONSULTING AND INSTALLATION

AIC's consulting team will work side-by-side with your IT team as we lead you through the Deployment process. We will provide both functional application guidance and technical assistance throughout the engagement and will assist you with training your team on the solution.

Training can include the following:

- Using and personalizing the Lawson Smart Office Canvas
- Working with shortcuts and drill around
- Adjusting Lawson Smart Office Settings
- Adding and configuring available Widgets
- Using the navigator, Inbox Collaborator and Groove
- Personalizing forms

THE AIC ADVANTAGE

AIC has been helping clients across the US enhance their business performance through the use of leading-edge technologies for more than 43 years. As a strategic partner with both Lawson and Microsoft, we have the experience and expertise to help ensure you get the most out of your Lawson Smart Office investment. AIC has been involved in over 2,000 successful Lawson projects leveraging our experienced staff.
